

# KeyPad Access V2

iTEch

## What is a KeyPad Access V2?

Transmon's KeyPad Access (or KPA for short) is designed to prevent unauthorised use of forklift and mobile plant equipment. The Access Control keypad will only activate the vehicle starter/ignition once a valid operator code has been entered.

## What's included:

- Keypad
- Instructions
- Connection cabling

## Features:

- Over 50 Driver Codes
- 12, 24, 48, 80Vdc options
- Robust design, easy to install
- Surface mounted – no black box
- Easy to use push button for start and stop
- Can be used with or without vehicle key switch
- Hardwearing, waterproof stainless-steel construction
- Compatible with IC and Battery powered forklifts and vehicles

## Benefits to you:

- Increase site safety
- Can be fitted to any vehicle
- Can discourage vehicle theft
- Restricts vehicle usage to authorised drivers
