Crane Warning Lights

What is the Crane Warning Light Alert?

The Transmon Crane Warning Light Alert system uses high powered 24 LED Spot / Line lights designed for workplaces where an overhead crane is in operation. The warning light system provides additional safety for crane operators and floor workers by providing a visual warning of an overhead hazard.

Two colours are available, Red or Blue. The powerful lights project a Spot or Line on the floor, a box can be projected around the hook or load. The lights are a simple and inexpensive way to enhance site safety for people working with or alongside overhead cranes.

What's included:

- Red or Blue 24 LED warning light
- Adjustable 150° mounting bracket
- Cable length: 3.3 metres
- Lens cover

Features:

- Accepts 12-24-36 and 48v DC input power
- Power: Blue 120 Watts, Red 72 Watts
- Lumens: 12000 lm, 8400 lm
- Supply voltage range: 9-60Vdc
- Material: Diecast aluminium
