

Forklift Warning Lights

Forklift Warning Lights

Transmon's high quality warning light range has been developed to enhance site safety by increasing operator and pedestrian awareness of moving hazards. Our portfolio includes projected blue spot and line warning lights. Blue spot lights can be powered permanently or powered in accordance with the direction of travel. Three separate Curtain Line Lights can be positioned to create a Halo effect around a forklift truck (L-R hand-side and Rear facing).

What's included:

- Red or Blue spot light
- Red or Blue curtain line light
- Optional Red Arc warning light
- Brackets, cabling, protective line fuse

Features:

- Blue or Red spot light voltages: 12, 24, 48Vdc
- Red or Blue curtain line light voltage range: 10-80Vdc
- Compatible with Diesel, LPG and Battery powered forklifts and mobile plant vehicles

Benefits to you:

- Improved site safety
- Can be fitted to any vehicle
- Warns operators and pedestrians of hazards
- Blue/red spot lights provide advanced warnings of approaching MHE
- Curtain line lights define the minimum safe distances around forklifts and vehicles

Halo Lights (Rear Arc light optional)
